Growth of \$100 (Since Inception)

The performance figures represent past performance. Past performance does not guarantee future results. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted. Call toll-free at 800-441-7762 to obtain performance data current to the most recent month-end. Returns less than one year are cumulative. Performance prior to the inception date of the share class (if any) is based on returns of an older share class, which have been adjusted for expenses.

Stocks have historically offered the potential for greater long-term returns, but also entail greater short-term risks than other investments. Value stocks may be subject to special risks that have caused the stocks to be out of favor and undervalued in the opinion of the portfolio managers who invest in them.
