Growth of \$100 (Since Inception)

The performance figures represent past performance. Past performance does not guarantee future results. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted. Call toll-free at 800-851-7555 to obtain performance data current to the most recent month-end. Returns less than one year are cumulative. Performance prior to the inception date of the share class (if any) is based on returns of an older share class, which have been adjusted for expenses.

Stocks have historically offered the potential for greater long-term returns, but also entail greater short-term risks than other investments. Mid-cap shares may be more vulnerable to market downturns and their prices could be more volatile than those of larger companies. Blend strategies are subject to both growth and value risks.

The information contained herein provides only a summary and will likely not contain all investment strategies, risk disclosures and other important information relevant to the fund.
